

Next generation biofuels have a significant role to play in the decarbonization of our economy. COMSYN project aims to bring the biofuel production costs down with intensified process technologies.

2nd COMSYN WORKSHOP

Future of BTL products in the EU

Place of venue will be Prague and Litvínov, Czech Republic, from May 23rd to 24th, 2019.

On May 23rd, 2019 the Unipetrol Centre for Research and Education (UniCRE) will welcome you in Prague at National Library of Technology (Technická 2710/6, 160 80 Praha 6 – Dejvice, Czech Republic).

On May 24th, 2019 you will be guest of the UniCRE research facility situated in Litvínov (Areál Chempark, Záluží 1, 436 70 Litvínov).

Participation is free. Please, send us an information about your attendance silvie.nikolova@unicre.cz.
